

1st INTERNATIONAL SYMPOSIUM ON BIOECONOMY
SAO PAULO – BRAZIL

SCRIPT PRESENTATION

Bullet points that we think might be relevant items to be prepared by the presenters for the panels of the countries.

Understanding that each will have 20 minutes of presentation.

- When was the first moment that can be considered the kick-off of the Bioeconomy movement in your Country?
- Today, end of 2016, can we say there is a leader for the movement, if yes, who is that: a leader or organization or segment or discipline that can be considered to lead the movement?
- How is Bioeconomy defined and organized in your Country?
- What is the Bioeconomy scope in your Country? Are all biotech fields included in?
- Since the beginning of the movement in your country which were the main achievements obtained? Please mention cases of success and failure/learning and the key features that made that case a success or the key learning of the attempt that was not successful but brought learning.
- How was the experience to have collaborative participation from very distinct stakeholders, like entrepreneurs, academia and policy makers from government ?
- What are the next steps in the development of the Bioeconomy in your country ?
- Which suggestions and ideas would you propose to the Brazilian Bioeconomy Manifesto?
- Is your country interested in following participating in the Bioeconomy movement in Brazil?
- Regulatory issues: - please make comments regarding the importance of regulatory issues in the development of the Bioeconomy in your country and worldwide, inclusive Brazil due its biodiversity.
